Merely locking your door can be ineffective, as many burglaries involve breaking glass and doors.

4 Principles of Crime Prevention

You can effectively protect against burglary by combining these 4 principles.

Times of Day

Make burglars spend a lot of time in their intrusion !

Lights

Use bright lighting around your house !

Sounds

Hear intrusions by using alarms and crime preventive gravel

Neighborhood watch

Cooperation between local residents, speak to suspicious-looking persons !

And

Auxiliary Locks

Multiple locks such as anxiary locks are effective.

CPmarks indicate construction materials used for crime prevention.

Use construction materials with a CP mark when you build or reconstruct your house.

Sensor Light

It can be effective to keep door lights on from evening to dawn.

Alarms

Crime Preventive gravel

Security Cameras

Interphones with a recording function

It can be effective to combine security cameras and interphones with a recording function.

Protecting against Bag Snatchers

Mostly women are targeted!!

Nearly 80% of victims are women !

「3B+N to protect against bag snatchers」

Try the following to protect yourself !

Bag

Hold your bag on the side opposite to the road

Back

Look around and back !
