

**To Third-Year Junior High School Students Advancing to Prefectural High Schools
and Their Parents/Guardians**
each student must prepare their own device in the school year 2026.

Laptop • Tablet

BOE will provide financial support for purchasing the device!

Support System

Qualifying Households

- Households receiving welfare (seikatu-hogo) or exempt from the income-based portion of residence tax
- Single-parent households [only those receiving child support benefits(jidou fuyou teate)]
- Family with multiple children (three or more dependent children; estimated of annual income less than approximately 6 million yen)

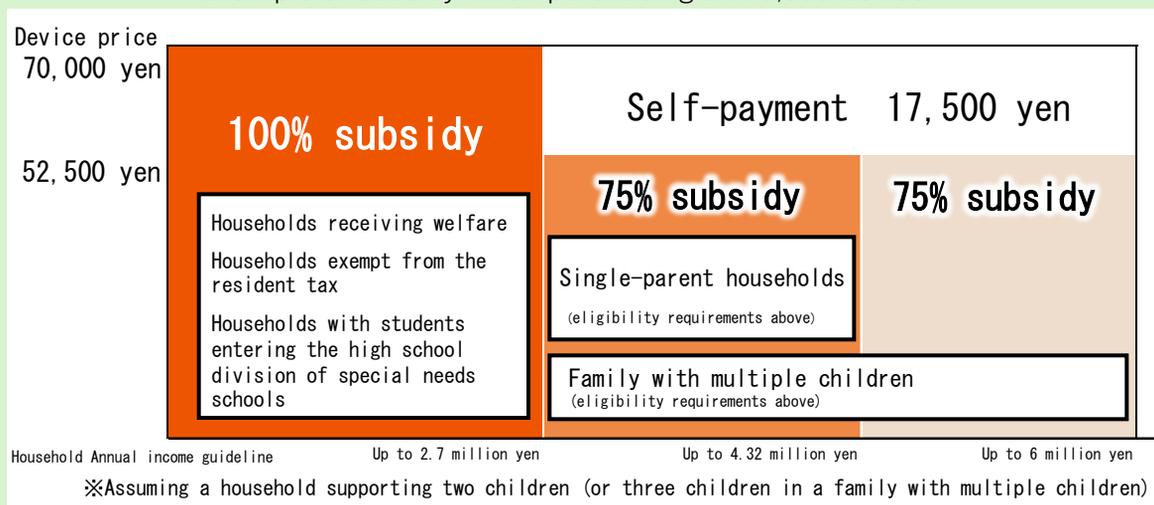

※Assessment is based on the total amount of the resident tax income portion.

- Households with students entering the high school division of special needs schools

**Financial assistance for device purchase
(maximum subsidy amount: ¥100,000)**

Household Status	Subsidy amount
Households receiving welfare ・ Households exempt from resident tax	100% subsidy
Households with students entering the high school division of special needs schools	
Single-parent households ・ Family with multiple children(eligibility requirements above)	75% subsidy

-----Example of subsidy when purchasing a ¥70,000 device-----

Please purchase the device on the designated e-commerce site when you use the assistance program.

The handouts will be distributed regarding recommended devices, e-commerce sites, more details and procedures at the prefectural school orientation session for successfully enrolled students in mid to late March.

This program is conditional upon the approval of the initial budget for fiscal year 2026. Its details may be subject to change depending on the budget approval status.
